Mr. John T. Myers ~~Commissioner~~  
~~Regional Manager, Washington~~  
Public Buildings Services  
General Services Administration  
Washington, D.C. 20407

Dear Mr. Myers:

Enclosed is a copy of my letter, dated 22 June 1979, to Mr. Paul Brumby, Director, Federal Program Branch, Department of Energy. This letter was sent in response to Mr. Brumby's letter of 14 June (copy also enclosed) which deals with energy resources management in Federally occupied buildings.

Please note that we are not in a position to provide the Department of Energy with the kind of information requested in paragraph 3 for the reasons stated in our letter. You have our assurance that we will cooperate with you on Federal energy programs in those buildings which we occupy.

Sincerely,

James H. McDonald  
Director of Logistics
